Kermit,

Yes, you did pick up WMYF on January 20, 1992. We are licensed to Exeter-Portsmouth, NH, on the "seacoast" of the state. Our Music Director, Steve McVie, is also a DXer (on the FM) and was quite impressed. He is a member of WFTDA.

WMYF's format is nostalgia, and broadcasts the programming offered by Stardust on the Satellite Music Network. The on-air talent was most likely Eddie Hubbard. The voice in the primary coverage promo was John Collins, our local morning anchor and News Director.

I am sending you a WMYF bumper sticker (actually a few), and a WMYF refrigerator magnet.
