Dear Mr. Geary,

I am very busy but I feel that I must take time to answer you very fine letter. Thank you so much for your report, it was indeed a great pleasure to read it.

You are our very first listener as we went on the air for the first time 2:14 A.M. November 10, 1951. Your receiving log is correct and checks with ours. Fine business on your receiving equipment. Our equipment is a Gates 250 watt transmitter which we are operating at only 100 watts into a shunt fed 150 ft vertical antenna.

I am making up a QSL card which I will send you. Also give you more details of our operation.

Thanks again for your report and would appreciate any other report you send if you hear us again.

Very truly yours,
Frank Matranga (W3KGH)
Owner, Gen. Manager and
Chief Engineer

P.S. Am send back your stamp, this one is on me.
