Dear Kermit:

We wish to thank you for the reception report you made of us on the morning of November 12, 1948 and the technical and other general information about the reception.

We make a Frequency check every 2nd and 4th Fri. mornings at 2:30AM.

We are just 250 watts but have applied for more so someday maybe you will receive us a lot better.

Yours truly,

Ray R. Summersgill (W5HMS)
