FEBRUARY 18, 1977

MR. KERMIT GEARY
R. D. 2, Box 298
WALNUTPORT, PA. 18088

DEAR MR. GEARY:

This is to confirm your reception of WGSM Huntington, New York on DECEMBER 20, 1976 from 0309 to 0330 EST. WGSM operates on a frequency of 740 KHz with 5000 watts of power feeding a directional array, having it's major lobe toward Eastern Long Island. During critical hours of possible interference, WGSM operates with 1000 watts non-directional.

I wish to thank you for your report since it does assist in determining the quality of WGSM's signal.

Yours truly,

ALAN D. KIRSCHNER
CHIEF ENGINEER
