W-KSN 1340 RADIO

WKSJ BUILDING - 415 WEST FOURTH ST., JAMESTOWN, NEW YORK - 14701
PHONE 4-9191

March 6, 1964

Mr. Kermit Geary
R. D. 2, Box 298
Walnutport, Pa. 18088

Dear Kermit:

Thank you for your report of reception of Station WKSJ on March 2, from 3:39 to 4:19 Eastern Standard time AM. Your report is clear and concise as to the program broadcast at that time, and is in full concurrence with our program log.

When I opened your letter your name struck me as being familiar, so in searching back in our DX files I found that you had reported reception of this station in 1962, on February 2, at 5:31 to 5:39 AM. At that time our call letters were WXYJ. We changed to WKSJ (kissin radio) on December 30, 1963, when new management took over here. We also went on a 24 hour schedule in 1963.

It is gratifying to know that our signal gets out so well. At a distance of 210 miles, things have to be just right to get as strong a signal as you report, and this is reflected in the transmission and receiving systems equally. Congratulations on your fine equipment and antenna system.

WKSJ operates 24 hours per day except from 3:00 to 8:00 AM Sunday mornings, on 1340 KC with 250 watts. The transmitter is a Western Electric 451-A. The tower is 150 foot self supporting, mounted on the roof of the WKSJ building in downtown Jamestown.

Once again, thanks for your report, Kermit. It is a pleasure to hear from you and others in the N.R.C. I am also happy to be able to answer your report in the affirmative. Best wishes to you and good luck with your Radio Club activities.

Very truly yours,

Burton Waterman, Chief Engineer
