RADIO

THE VOICE OF PUTNAM COUNTY

PROSPECT HILL ROAD • BREWSTER, NEW YORK 10509

(914) 279-7171

December 14, 1974

Mr. Kermit Geary
R.D. 2, Box 298
Walnutport, Pa. 18088

Dear Kermit;

Thank you very much for your recent report of reception of WPUT radio. I have shown the report to our news director, who was on the air at the time you were listening, and he said there was no doubt that it was his newscast you heard. Thus, I am pleased to verify your reception of WPUT radio on 1510 kilohertz on Sunday morning December 8, 1974 between 7:15am and 7:30am E.S.T.

WPUT operates with a non-directional antenna with 895 watts during daylight hours. In addition, Monday through Friday we operate with a pre-sunrise power of 4.2 watts between 6am and local sunrise. WPUT is the only broadcast station in Putnam County, New York state's fastest growing county.

I am sorry to hear that previous reports have gone unverified. However, our news director, Eric Gross, insists that he did reply to a report of yours this past Spring. I don't know if the verification got lost in the mail, or if you have perhaps misplaced it. In any event, I am happy to verify your reception of WPUT this past Sunday. We are planning on running a DX Test on Monday February 10, 1975 between 2 and 3am, and perhaps you can tune us in again and report on WPUT's signal.

Thanks again for your really fine report.

Sincerely,

Chris Lucas
WPUT/announcer
