Dear Mr. Geary,

This letter is to confirm your reception report of July 21, 1958. We drew in a big breath with our one lung and blew out a test signal to RCA at Riverhead L.I. We are just 250 watts you know.

Good to hear that we came in so strong. WPTF however seems to come in everywhere. Even Directional 50 kw's is something to be reckend with.

Best wishes to you and thank you for your fine report.

Yours truly
