Dear Kermit:

This letter is to confirm your reported reception of RADIO STATION W W L E on the morning of November 17, 1969.

You report is of great interest to me and have also received a reported reception from Fairfax Virginia from a Internation RADIO Club DXer.

For your information W W L E is operated on 1170 KH_Z with a power of 1000-Watts.

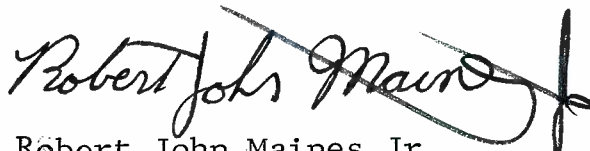

After talking with some local DXers I have found out that you might be interested in finding out when W W L E does a frequency check. If you would like W W L E does a frequency check the first Saturday in the month, between the hours of Midnight and 1:30Am.

Again I thank you for your interest in your reception, and I must say your log is indeed quite accurate.

Happy DXing

Sincerely yours
