

December 12, 1987

Kermit Geary
1266 Riverview Drive
Walnutport, PA 18088

Dear Kermit,

Thank you for your well-detailed report of reception for WXRA dated July 25, 1986. I apologize for the delay in responding to you; your report was put into a file in our operations manager's office, and brought to my attention by our new operations manager just yesterday. I do appreciate the enthusiasm you have for your hobby, as well as the service you provide to radio broadcasters, being also a National Radio Club member.

WXRA is licensed at 1000 watts during daylight hours, and 58 watts post-sunset. Our actual power is currently about 550 watts, as our transmitter is due to be overhauled shortly. Also in-the-works is our move to 1200 khz, with a nighttime power of 1000 watts, aimed to the south-southeast at night. With no interfering stations, you may be able to receive WXRA after sunset. The new two-tower array should be up, hopefully, in about six weeks, and testing on our nighttime pattern will begin.

WXRA runs the Satellite Music Network's "Stardust" format, plus carries ethnic programming, New York Giants football, and Syracuse Chief's baseball.

Again, Kermit, thanks for your report, and if you're ever passing through Syracuse, feel free to give me a call.

Sincerely,

A handwritten signature in blue ink, which appears to read "Phil Wayne". The signature is fluid and cursive, written over a white background.

Phil Wayne,
Account Executive
