Dear Mr. Geary

This letter will VERIFY your reception of W F O B on the morning of January 31, 1953.

Thank you very much for your letter, which was one of over 100 received after the program.

Most of the Eastern half of the nation was jammed by . O K E, that morning. The West Coast reported comparatively clear reception, though.

Thanks again.

Sincerely yours,

Robert G. Muhn,
Program Director
