Dear Mr. Kermit Geary:

Thank you for your fine letter, and warm remarks about WGOR Radio.

What you heard on March 7, 1977 does in fact match our programming log. Our transmitter power is 1000 watts. By the way, it is a old Vanguard/Gates model, which we will replace in the next couple weeks with a new model. I am sure that you will receive us at more times than.

Once again, thanks.

Sincerely,

Bob Britt
