

"Where the grass is greener."

February 27, 1986

DX Listening Post of;  
Kermit Geary  
1266 Riverview Drive  
Walnutport, Pa. 18088

Dear Mr. Geary,

This letter will confirm your reception of WUCO Radio's broadcast signal on December 1, 1985 and again on February 1, 1986.

I am sorry we are so slow in returning this notification to you but since we are a new station we are operating with a small staff and are just now getting caught up with our correspondence.

I am enclosing some background information on our station which signed on the air May 25, 1984. We are looking forward to our second birthday party in June, 1986.

We are located just east of Marysville, Ohio and are operating on a very tight directional pattern with a seven-tower day time array and a two-tower night time array. At present we are operating with 500 watts of power using a new Harris M-W 1 transmitter.

Our signal is directed mostly west from our location and barely reaches Columbus, Ohio so your reception of our signal is a pleasant surprise.

Many thanks for your letter and interest. If you ever travel in our direction, I hope you will take time to stop in for a visit.

Sincerely,

Ron Barlow  
Owner/Manager
