

YOU DID IT!
YOU FOUND!
WRTX
830 AM
96.7 FM

Mr. Kermit Geary
1266 Riverview Drive
Walnutport, Pa. 18088

Mr. Geary:

It is my pleasure to verify your reception of the WRTX 830 AM transmission of 9/29/90. Your log agreed with our log on every major point.

Our thanks is extended to you for the encouraging report of both air sound and modulation. We are serviced by a Harris SX-1 solid state transmitter with 1 kilowatt of output power, peak. WRTX is a single-stick, non-directional station which has been on the air about six years. It is the AM sister station of WRTX-FM (logical, no?) situated in Mercer, Pa.

Although not actively involved in DXing currently, I remember many times in my past when, either alone or with friends, I explored the vast world by means of the "wireless". No, I am not a youngster, but I certainly did buy into the romance of broadcasting at an early age. Radio has served me in good stead, and my broadcast experience, coupled with a desire to invite people into the Christian lifestyle and know Jesus as Savior, have combined to make an exciting, rewarding and interesting career.

May you continue to have the fun of tuning in to distant places, and may it serve you and others as you reach out to communicate with each other; after all, that's what radio communication is supposed to be all about!

GOD BLESS YOU, and may all your listening be happy.

MERCER, PA

Ron Wasilchak
Ron Wasilchak, Chief Operator, WRTX 11/2/90.
