Dear Mr. Geary:

This letter is to verify your correct report of WLKW.

WLKW operates daytime only with a power of 50,000 watts. A directional antenna is used with the major lobe aimed to the south-east over the City of Providence.

An RCA Ampliphase is used as the main transmitter with a five kilowatt RCA as the standby.

Thank you for your report and good luck with your future DXing.

Best regards,

Chief Engineer
