Mr. Kermit Geary
R.D. 2, Box 298
Walnutport,
Pennsylvania, U.S.A.-

Dear Mr. Geary:

We have just received your kind letter dated Feb. 22, in which you report to us the reception of our Station YVLH Radio Girardot in the frequency of 660 kc.

We have verified your report with our program ~~?~~ schedule for Wednesday night February 21 rst and found it to be absolutely correct.

Radio Girardot belong to the Radio Caracas network and is located in the State Aragua, near the city of Maracay, at the South border of the Valencia Lake. The power is 50 Kw, which by the use of two radiating towers phased as to give a cardioid patern is doubled to 100 K radiated power.

We have also the main transmitter of Radio Caracas, located right in the capital city with a power of 10 Kw in the frequency of 750 Kc; with this transmitter we have ample coverage for the metropolitan area and the 660 to cover most of the populated areas in the country.

We also run a short wave transmitter of 7.5 Kw on the frequency of 4.920 Kc.

We want to congratulate you for your instalation and also for the ample report for which we want to thanks you very much.

The writer, beside beeng in charge of all RC technical equipment is also a radio ham, YV5AEW.

With our thanks again for your excelent report, we remain

Very cordially yours
