Dear Mr. Geary:

First of all let me thank you for your very wonderful letter of December 21 which we received on Wednesday of last week. You have no idea what a magnificent surprise it was, and I cannot think of anything else that has made this first few days of a new year a happier one.

I don't know if you have been able to hear our programs again, but if you have, you will have heard your letter read over the air several times, and that several programs with the famous Mexican Orquesta of Luis Arcaz who is at the moment in Maracaibo and playing in our Radio Station, have been dedicated to you. Your "detalles de recepción" as you wrote in Spanish, which is by the way quite excellent, are letter perfect, and we found it very satisfactory that you should have remained as long as you did with our programs. Now that we are reaching so many countries and varied audiences, you can be sure that our programs will improve in quality and it is to be hoped that our listeners will write us from time to time with as many suggestions as possible.

Thanking you once again, and wishing you best of luck in this new year of 1957, and hoping to hear from you soon, we remain-

Very truly yours,  
ECOS DEL ZULIA, C.A.
