Dear DX'er:

This is to confirm that WAGL was conducting equipment tests on the morning of November 30, 1964, during your reported reception of same. We began the tests at 3 am EST and concluded at 3:30 am EST, and during test operated at both 1,000 watts and 500 watts.

Your report of reception has been placed in our files and your efforts are much appreciated.

Yours truly,

John D. Martin  
Chief Engineer
