Mr. Kermit Geary,  
Rt. 2,  
Walnutport, Pennsylvania

Dear Sir:

Thank you for your report on our equipment test broadcast of February 16th. It is very helpful to us in determining how well we were being received in your vicinity. We go on the air tomorrow morning at 9:00 CST. We will be a daytime station and it will probably be difficult for you to receive us in the future. We appreciate your interest, and the report is correct.
