Dear Mr. Geary;

Thank you very much for your report on our Equipment Test program of Sept 25, 1947. Your report as far as we can tell is correct in every detail.

Our transmitter is a Gates, 1000 watt job, connected to a 205 foot antenna that is erected in the middle of a salt marsh.

Your report and others like it were very helpful to us in determining whether the extra trouble and etc. that was involved in putting the equipment in a salt marsh in order to get the best possible ground system, was justified. So thanks again.

Very truly yours,

Orville K. Gibboney, Chief Eng.

P.S. Sorry I dont have reg. Ver. cards
