Kermit Geary  
1266 Riverview Dr.  
Walnutport, Pa 18088

Dear Mr. Geary;

Our engineer, Tom Crockett, is currently on vacation, so I am taking it upon myself to return your letter.

WPSK-AM operates at 5,000 watts daytime, 1,000 watts during critical hours. We were at 1KW at the time you were tuning in. We are currently simulcasting our AM and FM stations. This explains the occasional references to FM 107.

Thank you for your letter. We hope to hear from you in the future.

Best Regards,

A handwritten signature in blue ink that reads 'Steven Kirk'.

Steven Kirk

Program Director
