Dear Sir:

This is to confirm your reception of our station on 1/15/68 . Glad to have had you aboard.

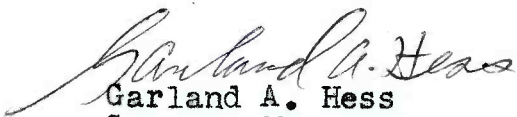

Thanks for your informative letter, it was one of the best we received. We have had reports from as far west as Missouri, north as Conn., south as Tampa Fla.

We are using one of the new Gates Vanguard Transmitters, Solid state except for the final. Results have been excellent.

Sorry this letter is late, the flu bug has had us down.

Best of luck to you, and all the DXers

Yours very truly,

Garland A. Hess
General Manager.
