Mr Kermit Geary
RFD #2
Walnutport, Pa.

Dear Sir:

I have compared your log of our operation for Sunday night February 15, 1953 with our station program log and find it to coincide in every detail. We have very few reports of reception in your area as the bulk of our signal is beamed north during the night time hours. It is gratifying to hear that you could hear us on this particular night.

Thank you very much for your letter--we will appreciate hearing from you from time to time when you do hear our signal.

Sincerely

A handwritten signature in blue ink that reads 'Dave Foley'.

Dave Foley C.E.
