Kermit Geary
R. F. D. #2
Walnutport, Pennsylvania

Dear Mr. Geary:

We are in receipt of your letter of the 20th of December, 1949, and regret that we have not answered sooner.

This is to verify your report of reception of our station K T B I in Tacoma.

We operate on a power of 1000 watts -- 810 kc., Class "B" Modulation -- daytime basis. We run frequency checks with Point Reyes, California, every third Tuesday of every month from 12:30 AM to 12:45 AM, Pacific Standard Time.

We very much appreciate your interest and information, and if you are ever in our vicinity please feel free to drop in and we will be glad to show you through our station.

As a point of interest, I am going to make a program check on February 26th about 12:30 AM - 1:30 AM.

Very truly yours,

Richard C. Velo
Chief Engineer
