Dear Kermit:

This will confirm your letter of February 9, 1962, in which you reported hearing WIXK testing equipment about 1 a.m. Thursday, February 8.

We ran the special test to check out a new modulation transformer.

Glad to hear that reception in your area was loud and clear. Because WIXK is a daytimer, we don't broadcast in the early a.m. unless we've had equipment trouble.

Many thanks for your nice comments and well wishes. And happy radio-ing from all of us.

Sincerely,

Bob Smith
