

WZAO 1370

Alive & Praising!

October 25, 1991

Kermit Geary
1266 Riverview Drive
Walnutport, PA 18088

Dear Mr. Geary,

We appreciate your report of October 15, 1991 on the reception of WZAO. We are always happy to receive these reports and yours was very complete and accurate in time and content.

Our station was put back on the air May 25th of this year after being dark for a couple of years. It was given to our group to bring it back to life. Our transmitter facility is a RCA BTA-5U shunt feeding a 198 foot tower with all the copper we can get into the ground. Our program facilities are located approximately 5 miles from the transmitter feeding same with 948 MHZ STL and our main source of programming is the SkyLight Satellite Network.

Thank you again for your report.

Sincerely,

Michael E. Dunn
