Mr. Kermit Geary
Walnutport,
Pennsylvania

Dear Mr. Geary:

During the years in which I have answered many reception reports of radio stations with which I have been associated, I don't think I have ever received a letter the equal of yours of May 5th.

Your enclosed log, in addition to being entirely accurate phonetically, contained no mistakes even in the difficult spelling of several local names. You are also to be commended for the technical excellence of your report. It was flawless!

Many thanks for your interest. We in the industry are grateful for the information we garner from the DX reports...especially when I find our signal received with such clarity so far away.

Best regards,
DOVER BROADCASTING CO., INC.
