Mr. Kermit Geary
R.D. 2, Box 298
Walnutport, Pa.

Dear Mr. Geary:

This is to confirm your reception of our signal on the afternoon of May 24, 1966. I am enclosing some representative materials concerning our university and trust that you will find them interesting and informative.

We appreciate your interest in our operation and your letting us know that we were heard in Pennsylvania.

We are presently using a Gates BF-3E transmitter and a Collins Type 37M-6 antenna side-mounted at the top of a 260 foot supporting tower. Our ERP is 17,000 Watts. The transmitter is to be replaced with a new one this summer. However, at this time we do not know the make or type.

Once again, thanks for your interest in our station.

Yours sincerely,

E.C. Haddock, Dir.
