Dear Kermit:

Thank you very much for your DX report on our FM station. I was very surprised that we got out so well. Am happy to confirm your log and sorry we dont' have any DX card to send.

We have a Gates 5 KW transmitter with a Andrews 8 bay V type ant. with an effective radiated power of 20 KW. We program hillbilly music all day long and it is operated all automatically with an automatic programer, we turn it on in the morning and turn it off at night,, and change the records once a day.

Thanks again for your report and hope to hear from you again sometime.

Very truly yours,

Chief Engineer
