Kermit Geary
1266 Riverview Drive
Walnutport, Pennsylvania 18088

Dear Mr. Geary:

Thank you for your signal report from January 8th at 7:40 a.m.

We are broadcasting at 38,000 watts E.R.P. (effective radiated power) and our antenna (Jampro 4-bay circular-polarized) is mounted atop a 600-foot tower. Our transmitter is an AEL 25KG which is linked to our studio by telephone line.

We receive our 24-hour programming by way of satellite on Westar IV ... on a 16-foot diameter dish located at our studio. We use dual-city identification (Camden-Philadelphia) because we cover the city of Philadelphia.

Our Allentown translator is 1 watt.

Enclosed is our literature. We do not have a coverage map.

We trust you'll be able to receive many more stations in your DXing activities.

Very truly yours,

FAMILY STATIONS, INC.
