Dear Mr. Geary,

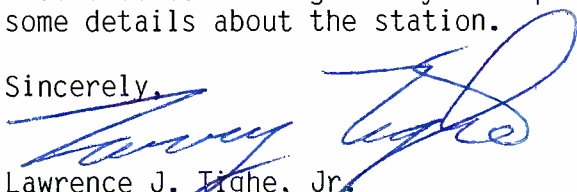

Thank you for your letter regarding our new FM station. We appreciate hearing about our coverage.

Presently, we are operating with our stand-by transmitter located in Mansfield, NJ. Our main site proved to be unsatisfactory due to multi-path problems. We are presently building a new main transmitter site just south of Stroudsburg.

We have been operating with only 460 watts from Mansfield. The new site will have us higher and our normal output power will be increased to six thousand watts, ERP. This will be accomplished within the next two months. Please let me know if you notice the difference.

I've checked our logs and your report is correct. Please find enclosed, some details about the station.

Sincerely,

Lawrence J. Tighe, Jr.
G.M.
