Clinton Broadcasting Corporation

December 10, 1971

Dear Mr. Geary,

Just a short letter to confirm your reception of W C T X FM on Saturday December 4th. Your log was right, and we are happy to hear our signal is strong and clear in the Lehigh Valley.

We have been operating W C T X since April, 1969. We are now using a 3000 watt cca stereo transmitter with an E.R.P. of 3 Kw. Our studio and transmitter are located 1 mile north of Palmyra on north Railroad Street--Gravel Hill.

We have a circularly polarized antenna from CCA. It stands 150 high, being 230 feet above the average terrain and is 730 feet above sea level.

Thank you for your letter, and we hope you tune us in again in the near future.

Sincerely,

A handwritten signature in cursive script that reads "Hugh J. Clinton".

Hugh J. Clinton, Pres.
Clinton Broadcasting Co.
