April 10, 1962

Mr. Kermit Geary  
R. D. 2, Box 298  
Walnutport, Pa.

Dear Mr. Geary:

Thank you for your letter and detailed report on the reception of WHY Y FM in the Walnutport area. We are pleased to know that our signal is reaching you and delighted that you are able to give it such a high rating.

Your log of our operations on Friday, April 6 is quite accurate and I am therefore happy to confirm your reception of WHY Y.

The WHY Y signal is broadcast from downtown Philadelphia at an antenna height of 540 feet above the ground and an effective radiated power of 20 KW.

I hope that you will continue to enjoy our special kind of programming and that from time to time you will send us your comments. We will be happy to hear from you.

Sincerely yours,

Samuel H. Barbour  
Chief Engineer
