

WINK 104FM

HARRISBURG PA

Dec. 30, 1992

Dear Kermit,

This is to confirm your station report of Dec. 23, 1992.

All of your log info was correct and I appreciate your report.

Please excuse the above letterhead as we do not have separate paper for the WINK.

We are presently using an ITA 1000 watt transmitter (vintage 1962) with an end fed vertical 10' above the ground for flood protection.

Thanks again for your report and keep listening. By the way, I am a ham WA3MBF and also did some SWLing in my younger days.

73,
