Dear Kermit:

③ We are very pleased to hear that our station is coming in so well in your area and are therefore happy to verify the reception of our station WQAL-FM operating at a frequency of 106.1 megacycles. Our power output is 3.25 KW. Our antenna height is 490 feet above ground level and approximately 900 feet above sea level. Our effective radiated power because of the height of our tower is equivalent to 20 KW.

We hope our programming pleases you and that you and your friends continue to listen to us.

Very truly yours,

WQAL-FM
