RD 2, Box 298  
Walnutport, Penna., 18088

Dear Kermit:

This letter is a confirmation of reception of WRLC on 92.1 megacycles on Friday, December 10.

According to your recent letter of December 11, you received WRLC between 10:15 and 11:05 P.M., Eastern Standard Time. I compared the data given in your letter with our station log. Your report was not entirely correct. Everything you listed between 10:15 and 11:00 was correct, however, you logged Latest News on WRLC between 11:00 and 11:05. WRLC does not broadcast news!

We are still operating with an effective radiated power of 800 watts from our 250-watt Gates transmitter. We are looking forward to increasing our power, but this would be several months away.

I am answering this letter on behalf of our chief engineer, Mr. Weldon Manning. I noted in your letter that you sent regards to Mr. James W. Reichard who, of course, is no longer our chief engineer.

Thank you for sending us your reception report. We always enjoy hearing from people such as yourself. We hope to hear from you again in the future.

Best wishes for a Merry Christmas and a Happy New Year from the entire staff and management of WRLC!

Sincerely,

Darlene Gates  
Program Director
