Kermit Geary
RD#2 Box 298
Walnutport, PA 18088

Dear Sir:

Thank you very much for your complimentary letter of November 3, 1975. Your reception is confirmed via our station Logs for Sunday, November 2, 1975.

However, we are WZTA, not WVTA. We operate at 3000 Watts, on 105.5 Megahertz, full power 6 a.m. to midnight, with an MOR-Easy format. I don't know our actual antenna height, but it is approximately 11 feet below terrain level.

Again, I thank you for your letter. Please feel free to call on me if I can be of any service to you.

Sincerely,

James A Bowman
General Manager
WZTA
