Kermit Geary
R.D. 2, Box 298,
Walnutport, Pa.

Dear Mr. Geary:

Please accept this communication as a verification of reception certificate relative to your reception of WMTI, October 25, 1963 between the hours of 8:55 PM to (9:24 PM inclusive).

Thank you very much in the interest shown our broadcast and we look forward to hearing from you and your friends in the near future.

Our antenna is mounted on a 150 foot tower and is known as an eight bay multi-v produced by Andrews Company. Our power output is 21KW when operating at peak efficiency. Since there are problems in obtaining our rated output we are presently operating at approximately 17,000 watts effective radiated power (non directional).

Again allow me to express my appreciation for the interest shown in WMTI-FM.

BJW/bjw

Cordially,

B.J. Williams
Chief Engineer
WMTI-FM
