Mr. Kermit Geary
R. D. 2
Box 298
Walnutport, Pennsylvania

Dear Sir:

Thank you for your letter reporting reception of WRFL on July 28 this year.

In previous years, we have had report of reception in the New York area and earlier this year we received one from Vermont.

We are pleased to add this location to our map of reception areas. Your notations tally with our log and please, therefore, consider this a letter of confirmation of your reception.

Presently we are running a 5KW transmitter into a Western Electric antenna to give an effective radiated power of 22KW at an actual elevation of 2300 feet above sea level, or a height of above average terrain 1300 feet.

Thank you again for your fine comments.

Sincerely,

Philip Whitney
Manager
