

## POLICE DEPARTMENT

CITY OF NEW YORK  
OFFICE OF ACT. SUPERINTENDENT OF TELEGRAPH  
January 27, 1944

Mr. Kermit Geary  
R.F.D. #2  
Walmartport  
Pennsylvania

Dear Sir:

This is to acknowledge receipt of your letter of January 19, 1944, in which you report in detail reception at your location from our three transmitting stations.

Our records verify your chronological listing of messages and alarms transmitted over stations WPEE, WPEF and WPEG on January 18, 1944.

In answer to your query, the central radio control room WPEG is located at Police Headquarters, Manhattan, operating at 500 watts output. Radio stations Wpee (Brooklyn) and Wpef (Bronx) operate at 400 watts output each and are remotely controlled from the central radio room. All three stations are of Western Electric manufacture and employ the inverted "L" type antenna.

We appreciate your interest in our radio system and thank you for your very comprehensive report.

Very truly yours,

*Francis A. Burns*
