PA 18088
U.S.A.

Dear Mr Geary

Thank you for your letter of 20th February with reference to our transmission on 16KHz.

From the information in your letter I can confirm that you were receiving our 16KHz transmission call sign "GBR". However your letter does suggest that it was an AM transmission during time signals. It is in fact a CW (A1A) mode of emission.

I enclose a copy of our standard frequency transmissions for your information.

I apologise for the delay in replying to your letter.

Yours sincerely

M J Hancock
