Dear Sir:

Greetings from the Liberian Telecommunications.

This acknowledges your letter of January 8, 1968

verifying that our transmission was heard by you on the frequency
of 13935 kHz. We were beaming towards the American Telephone And Telegraph Company

which we run a Daily Schedule using 10 KW with a bearing of
about 312° using Independent Sideband Transmission.

Thanking you very much for your report and we also welcome
Signal Reports from anywhere in the world.

I remain,

Yours truly,
