Dear Sir:

In regards your letter 23 September 1961. Your reception of the CGC FORSYTHIA on 2694 Kcs is confirmed. As there are no Radiomen attached this unit, the radio watches are stood by Seamen, and our operation log is brief.

This unit's transmitter is an RCA Radiotelephone Model ET-8050 HF plate, inport power 150 watts, antenna power 85 watts; call letters of this unit are NRZY.

I am pleased to know this unit is putting out a good signal. I wish to congratulate you on your fine receiving.

Yours sincerely,

A handwritten signature in blue ink that reads "Elmer Lovan".
