Dear Mr. Geary:

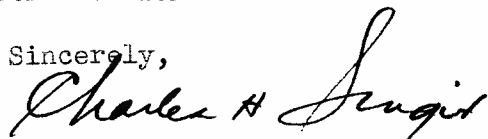

I am pleased to verify your reception of our Navy Day broadcast of October 27th over portable station WBAQ.

A check of our log reveals that the report presented by you is correct in every detail, from the test heard by you which was addressed to me just prior to the broadcast of the program, to the end of the celebration.

I appreciate also the complete information submitted regarding your receiver equipment. The power used for our portable station was 30 watts.

I wish to thank you for your interest in writing to us, and I hope that you will continue to tune '71' on your dial for our regular broadcasts over WOR.

Sincerely,

Charles H. Singer  
Assistant Chief Engineer
