Kermit Geary Esq,
R.F.D. N^o.2,
Walnutport,
PENNSYLVANIA.

Dear Sir,

We are in receipt of your letter of the 23rd February containing reception report from CR7BE on 31 metres, for which we thank you.

Owing to a slight interference which was noted in receiving our transmissions on this wavelength we are now testing on 30.88 metres since 25th March and we should be very grateful if you would kindly send us further reports.

For some time we have been putting over a transmission beamed to America from 12 to 13 GMT on 19.62 metres. However, we have had no reports from your country which leads us to suppose that this hour is not favourable, therefore, we would esteem it a favour if you could advise us which time you consider most convenient for transmissions to North America.

Our Verification card will be forwarded to you as soon as available as, owing to prevailing conditions there has been some delay at the printers.

Trusting to have the pleasure of hearing further from you and your friends,

Yours truly,

Manager.

CR7BE
