"Christ to the World by Radio"

Box 1
Karuhatan, Valenzuela
Metro-Manila
Philippines

Tel. 35-65-11 to 16
Cable Address: FEBCOM, Manila

Dear friend,

It is good to hear from you! We thank you for taking the time to send your reception report. It is with joy that we verify it with the enclosed QSL card.

Perhaps you would be interested to know a little about FEBC Radio International in Manila. At present we have twelve transmitters for the different services. Seven transmitters are used for our shortwave operation. Two transmitters are in the medium wave band, one of which is for the domestic service and the other one is intended for international coverage. The remaining three transmitters are in the tropical band, domestic SW band and in the FM band.

Our constant aim in broadcasting is to acquaint people with the Person of Jesus Christ. We do not seek to win people to a religion, but to a person. The Bible tells us that we have to "believe on the Lord Jesus Christ" to be saved from our sins and the punishment for them. The Lord Jesus said: "I am the way." By that He means, He is the way to Heaven. Will you believe on Him? We would be glad to hear from you again, and would try to answer any questions you may have. And, questions or no, we would be grateful for any further reception reports as you have the time to listen and send them.

Sincerely,

FRED M. MAGBANUA, JR.
Director

Dear Friend:

Thank you for your response to our appeal for reception reports on the short wave frequencies of the Far East Broadcasting Company. It is our desire to put as strong a signal as possible in your direction at the time of day when the potential audience is the greatest and on the meter band most effective. Your reports help immeasurably in the accomplishments of this purpose.

The Far East Broadcasting Company is a Christian service agency, dedicated to aiding missionaries and national Christians of all evangelical denominations to proclaim the message of Christ in the languages of the people. The short wave frequencies of the world are crowded with voices, each one with its particular message. Ours is the message of Christ sounding forth as a "Voice in the Night" to aid men in finding freedom, truth and eternal life.

Enclosed is F. E. B. C. Overseas Program Schedule. We hope you will continue to listen and send reports from time to time.

Sincerely yours,

Richard E. Bronson
Director for Asia, FEBC
