BETREFF:

IN DER ANTWORT ANZUGEBEN

Dear Radio Friend,

We must apologize for not answering sooner to your very friendly letter of Nov. 6th, which we were delighted to read. We do appreciate the interest which you take in the old country - and last but not least in our Station's work. What about coming to see the land of your ancestors and pay a visit to the German Shortwave Station? We should be only too glad to welcome you here and perhaps, give you a chance to speak to your friends in the USA!

Since your family comes from the Palatinate we think it will be of interest to you to receive views from this part of Germany which we have pleasure in sending you separately together with an illustrated description of our Station's interior. We are also sending you a program forecast and wonder whether you would like to receive it regularly. We are also sending you today a magazine "Freude und Arbeit" which will certainly be of interest to you and your fellow-workmen.

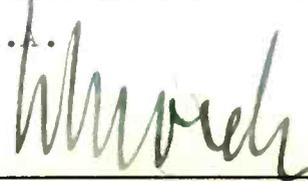

We should be only too glad to greet you over the air at a date which you will kindly fix in advance (4.55 or 10.45 p.m. EST) Please let us know if you want a call from our Station.

So long with all best wishes, and hoping to hear from you again from time to time, we remain

Yours cordially,

Reichs-Rundfunk-G.m.b.H.
Deutscher Kurzwellensender
