January 10, 1944

Dear Mr. Geary:

Thank you for your most complete report on reception of WRUA. Unfortunately, we don't have the logs here to check the report with, and so cannot verify it for you. Our powerful transmitters are being used by our Government, and the programs you heard were planned and sent out by the O.W.I.

If you care to check your report with our transmitter, you might send the report to the engineers, at the transmitter, Scituate, Mass. Sometimes, the engineers there are very eager to get reports on WRUA.

Our own Foundation programs come at 5.00 pm EWT each day, on 11.73 Mc and 9.7 Mc. in "Friendship Bridge".

Sincerely yours,

A handwritten signature in cursive script, appearing to read "E. Harriett Donlevy".

E. Harriett Donlevy
