Dear Wayne:

We are pleased to verify your reception report. We have received several reception reports from Finland, Sweden as well as the Pacific Northwest.

CJCY signed on July 1, 1982 with a power of 10K night and day. Our daytime broadcast pattern is 200 Kilometers East and West. However, at night we must provide protection to other stations on or near 1390 KHz and our signal is pulled in much tighter East & West but bulges to the North.

Medicine Hat is a city of 45,000 in the southeast corner of Alberta. Grain Farming, beef, hogs, dairy and poultry play an important part in our agriculture environment. Much of Southern Alberta is irrigated and we grow many varieties of row crops (beans, peas, carrots, potatoes, etc.).

For your collection, please find enclosed a verification card as well as a CJCY Funsticker.

We look forward to hearing from you again.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Jim Martyn', written over a horizontal line.

Jim Martyn
Program Director/CJCY
