Dear Mr. Heinen:

Thanks very much for you letter. This is (apart from your previous letter which we don't seen to have), the first time we've heard from someone in your part of the world. We do get a number of letters and tapes from the Scandinavian countries throughout the year and we have had one from as far away as South Africa.

It's interesting to see just how far afield a signal will wander, so keep listening and let us know if you do hear us again.

thank you

Tim McIntosh
