

THANK YOU

From

John & Luvirn Mathis

Betty Freeman Kevin Bryant Keith Hammond

And all the folks at Marranatha Ministries.

This is to confirm your reception report of radio station WPHG, Atmore, Alabama, on 1620 khz.

The programming items and commercials you listed have been checked with our program log for that day and found to be correct.

WPHG operates with a power of 10,000 watts, non-directional, day and 1,000 watts, non-directional, nights. Our antenna is a series fed one half wavelength (300 ft.) vertical. Our transmitter is a new 10 kw Omnitronics digital, with a Delta C-Quam stereo generator. Our audio processor is a new 5-band DB-Maxx. We use the DAD-Pro Digital automation system with all local audio on harddrive. We began broadcasting on Sunday, February 1, 1998 at 0500 CST.

Thank You, again for being a part of this momentous occasion for Marranatha Ministries and we wish you the best in your DX endeavors.
